ABOUT THE AUDIT

This report contains the results of our independent accountability audit of Bethel School District No. 403 from September 1, 2011 through August 31, 2012.

- Skills Center expenditures

AUDIT HISTORY

We audit the District annually. The 2009 audit contained a finding regarding inadequate controls over Associated Student Body activities. That finding has been resolved.

District management has been responsive to audit recommendations. We believe this reflects the District’s commitment to implement and maintain strong internal controls over accountability, federal programs and financial reporting.
The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

Our mission is to work with our audit clients and citizens as an advocate for government accountability. As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

The State Auditor's Office employees are located around the state to deliver services effectively and efficiently.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments and fraud, whistleblower and citizen hotline investigations.

The results of our work are widely distributed through a variety of reports, which are available on our Web site and through our free, electronic subscription service.

We take our role as partners in accountability seriously. We provide training and technical assistance to governments and have an extensive quality assurance program.
