

Bethel Alternative Learning Experience Programs Bethel Online Academy Agreement

Bethel Public Schools offers the Bethel Online Academy as an online alternative program. Students in grade 7-12 are provided online courses and access to Washington State certified teachers via the Internet. The program allows for innovative uses of technology, a customized learning environment, and access to skilled instructors.

Bethel School District students should seek to be totally honest in all their dealings. They should complete their own work and be evaluated based upon that work. They should not engage in any form of academic dishonesty or misconduct including, but not limited to, plagiarism, fabrication or falsification, cheating, and other academic misconduct.

Plagiarism is the deliberate or inadvertent act of representing the words, ideas, or data of another as one's own without providing proper attribution to the author through quotation, reference, or footnote. This can be in the form of verbatim copying, paraphrasing, or in any way taking another's work as your own.

Fabrication or Falsification is a form of dishonesty where a student invents or distorts the origin or content of information used as authority.

Cheating is a form of dishonesty where a student attempts to give the appearance of a level of knowledge or skill that has not been obtained. Examples include copying from another person's work, allowing someone to copy from you, using tools or resources not allowed, working with another person when not allowed, or doing another person's work for them.

Other Academic Misconduct includes other academically dishonest, deceitful, or inappropriate acts which are intentionally committed. Examples include inappropriately providing or receiving information or academic work so as to gain unfair advantage over others, changing grades, stealing copies of tests, etc.

I have read the Bethel On-Line Academic Agreement and promise to uphold the Bethel School District standards to the best of my ability. I hold the qualities of honesty and integrity in the highest regard and will not violate them or support those who do. I understand that I may be required to take tests on-site or provide evidence of the authorship of my work in the event that there is ever a question to the authenticity of the work that is presented.
